

To expand our scientific team in Vienna, we are looking for a highly motivated

POSTDOC

YOUR PROFILE

- Completed university studies (doctorate/PhD) in the medical or scientific field
- Experience in the planning and implementation of research projects reflected in publications in peer-reviewed journals
- The ability to keep track of multiple scientific projects
- High interest in scientific work
- Personal initiative, commitment, loyalty, reliability, analytical thinking, structured and independent work

YOUR RESPONSIBILITIES WILL INCLUDE

- Planning, conducting, and publishing of scientific projects in the field of epidemiology
- Supervision of master students and PhD students
- Coordination and support in the implementation of various projects

YOU WOULD BE PART OF

- [The Ludwig Boltzmann Institute for Lung Health](#), which is part of the Austrian Ludwig Boltzmann Gesellschaft, was founded in 2002 to conduct clinical and translational pneumological research at the Pulmonary Competence Centre of the Clinic Penzing in Vienna.
- Since its foundation, the institute has conducted a wide range of research programs in the fields of lung development, chronic lung diseases (and their comorbidity) and pneumological oncology.
- You would enrich our research team which consists of medical experts, young and experienced scientists working in a longitudinal research project – [The Austrian LEAD study](#).
- The Austrian LEAD Study is a longitudinal, observational, epidemiological cohort study aiming to investigate respiratory health through life. The survey includes a representative sample of the Austrian general population between 6 and 80 years of age and focuses on lung growth and development, genetic, environmental and socioeconomic risk factors for abnormal lung function and extrapulmonary manifestations of abnormal lung function and related comorbidities (cardiovascular disease, metabolic disorders, depression and anxiety).

INSTITUTE
Lung Health

OUR OFFER

- An exciting position in an international and dynamic environment with continuous learning opportunities.
- Close cooperation of physicians and scientists from different fields and countries which enables high-quality and interdisciplinary research and the possibility of a dynamic exchange of information.
- An inclusive team where diversity and different opinions are respected and valued.
- Monthly gross remuneration of EUR 3.500.- for this full-time position. Depending on qualifications or special professional experience, a higher salary may be agreed upon.

INTERESTED?

Then we look forward to receiving your meaningful application. Send your application documents (letter of motivation, curriculum vitae, certificates, descriptions of professional skills) to Mrs Nadine Forstenlechner (application@leadstudy.at). We look forward to meeting you soon!
